The print edition of *Gear Technology* is our most powerful tool for positioning your brand in the marketplace. *Gear Technology* is written for the gear industry. Our articles cover every phase in the life of a gear, including design, manufacturing, inspection, heat treating and end use.

For more than 38 years, gear industry decision makers have turned to *Gear Technology* for our unbiased technical content, decades of editorial experience and the breadth and depth of coverage. Today, the MICHAEL GOLDSTEIN *Gear Technology* Library at geartechnology.com is the most comprehensive collection of gear manufacturing information and technical articles available anywhere. You can count on us to put your display advertising alongside the industry's most trusted and read content.

About Our Readers

Gear Technology is the most direct way to reach the gear industry. Detailed information is available in our audience report.
