YOUR HEAT TREAT LIFTS OFF HERE

HEAT TREAT 2017 | BOOTH 2300
in conjunction with AGMA Gear Show

Low Pressure Vacuum Carburizing Furnaces

- Installed over 1,000 cells of heat treating capacity with almost every industry in the world
- Low pressure vacuum carburizing and gas quenching for millions of parts that bring motion and reliability
- Designed to provide high uptime to demanding production environments in all manufacturing markets

9505 72nd Ave. Ste 400 • Pleasant Prairie, WI 53158
262.605.4810 • www.ecm-usa.com

ICBP® Nano

ICBP® Duo

ICBP® Flex

ICBP® Jumbo

■ Vacuum Carburizing

■ Gas Quenching

■ Neutral Hardening

■ Carbonitriding

■ Oil Quenching

Thermal Processing Equipment for the Production of Bearings and Gears.

Designed, Manufactured and Serviced by AFC-Holcroft.

- One of the most diverse product lines in the heat treat equipment industry: **Pusher Furnaces, Continuous Belt Furnaces, Rotary Hearth Furnaces, Universal Batch Quench (UBQ) Furnaces** – all designed and optimized for the production of bearings and gears
- Customized solutions with full turnkey service including load/unload automation, press quenching, etc.
- Worldwide infrastructure in North America, Europe and Asia
- Over 100 years of experience, and thousands of projects installed worldwide

AFC-HOLCROFT
